ZELECT®
Zinc with Oral Rehydration Salts

Why Zinc with ORS

ZINC reduces episode duration and severity in acute diarrhoea\(^1\)

Also, Zinc supplementation corrects
- Impaired water & electrolyte absorption\(^1\)
- Decreased brush border enzymes\(^1\)
- Impaired cellular & humoral immunity\(^1\)

Clinical efficacy

"It is concluded that oral zinc administration in acute diarrhoea can replenish body zinc status and this may shorten the diarrhoeal duration and frequency in children with relatively severe zinc depletion."\(^2\)

Restores Body Fluids & Electrolytes Lost Due To Dehydration

The contents of ZELECT sachet (5.7 gms.) to be dissolved in 200 ml of freshly boiled and cooled water; to be used within 24 hrs.

Dosage: 4 to 5 sachets per day.
